# About us...

Perfect Filaments Limited was incorporated in year 1994 and since then has grown manifestly. Our journey closer to three decades has been a story of pioneering innovation, manufacturing excellence and strategic evolution. Our diversified product portfolio using forward and backward integration has ensured that we achieve significant growth in most challenging times and also in times of prosperity. We are committed to provide the perfect match to our customers' needs through our products and services.

# Product Offering

Particulars ...	Availability in ...
Product	DTY (Draw Texturised Yarn), POY (Partially Oriented Yarn), FDY (Fully Drawn Yarn)
Polymer	Virgin Polyester (PET), Recycled Polyester (PET), PP, PBT, PLA, Nylon 6
Luster	Semi Dull, Full Dull, Bright, Super Bright
Type	DTY (Draw Texturised Yarn), POY (Partially Oriented Yarn), FDY (Fully Drawn Yarn)
Colour	Dope Dyed (Pre dyed) in Any Colour, Cationic
Denier	7 to 1200 denier
Filament Fineness	Ultrafine 0.5 denier/filament to course 7.0 denier/filament
Filament Cross Section	Round, Trilobal, Plus, Slit
Intermingle	HIM, SIM, LIM, NIM
Ply	1 to 10
Specialty	Melange effects, Slub effects, Soft Feel, Cotton Feel
Inherent Performance	Permanent Fire Retardant, Permanent Anti Bacterial, Moisture Management

We can offer product in different combination from above list ...

Example > **DTY Recycled Polyester Semi Dull Dope Dyed 100 denier /144 filaments Round Cross Section LIM 1 ply with Moisture Management Property**

# Key Products

## **Sustainable Yarns**

- Recycled Polyester Yarn (Solid & Melange)
- Biodegradable Recycle Polyester Yarn ( Solid & Melange)
- Dope Dyed Polyester( lowest Higg Value)
- 100% Natural CornSilk Yarn (PLA , Bio degradable)
- 1 Tree Planted per Product/KG

## **Specialty Yarns**

- Ultrafine Multi-Ply Yarn (5 to 30 denier, 2 to 10 ply)
- Cationic Polyester Yarn (High Dye Pickup)
- Cationicmagic (50% Extra Dye Pick-up compared to regular polyester)
- Full Dull Polyester Texturised Yarn (Cotton Look)
- Melange Polyester Yarn
- Melange Polyester Slub Yarn
- Super Bright Textured High Intermingle Yarn

# Production Capacity

Product	Production
Draw Textured Yarn (DTY) <ul style="list-style-type: none"><li>- <i>Virgin</i></li><li>- <i>Recycled (Scalable)</i></li></ul>	80 tons / day <i>60 tons / day</i> <i>20 tons / day</i>
Fully Drawn Yarn (FDY)	5 tons / day
Air Textured Yarn (ATY)	3 tons / day
Partially Oriented Yarn (POY)	80 tons / day <i>(In-house Consumption)</i>

# End Uses

- Apparel
  - Woven
  - Knits
- Active wear
  - Sports Wear
  - Yoga wear
- Elastics, Tapes
- Home Textile, Home Decor
- Bags
- Caps
- Shoes
- Automobile

# Contribute towards achieving UN The Global Goals

# 1 Tree Planted

LINK YOUR PRODUCT TO TREE

- One tree will be planted for every product purchased by customer
- Every Tree Planted and Survived will have Unique ID and photographed by the Agency at 1 Year of Age
- Tree plantation will be Audited and certified by an Internationally Recognized External Agency (like Control Union)
- End product will have Unique Tag which has a Barcode/Link pointing to the website of the Agency showing the consumer the photograph of the tree that has been planted and other relevant Info like current age, estimated carbon impact, etc
- Advantages:
  - Conserve nature and redcue global warming
  - Become Carbon Negative
  - Support family - estimated that the annual net income for the farmers would increase by 3 to 8 times in 5 to 7 years
  - Individual contribution towards nature
  - Estimated Cost 0.75 USD per Tree Survived and Audited
  - Approx 100 kgs of CO2 reduction with every single tree planted per annum

# Patented Product - 1

Patent US 9,932,693 ; IN 285236

Method for manufacturing a multi-ply separable filament yarns and multi-ply separable textured yarn

Major use: Home textile

Advantages:

1. High Productivity
2. Cost saving upto 40%
3. Reduced carbon emissions by 88%
4. Green Technology : CO<sub>2</sub> generation reduced by 17.50 kgs per Sheet Set
5. Offering same with GRS certificate in option.

# Patented Product - 2

Patent US 10,443,161 B1 Dated 15 Oct 2019

High thread / yarn count woven textile fabric and process of preparation thereof. (WARP CVC)

Major use: Home textile

## Advantages:

- Min 5% saving in Final product cost
- Green yarn technology
- Carbon saving due to elimination of sizing process
- Product can be claimed for 'Single Pick Insertion'
- Offering same with GRS certificate in option.

# PLA (Polylactic Acid) Yarn

- 100% Raw Material Sourced from USA
- 100% Natural - USDA BioPreferred
- 100% Bio-Degradable
- Lowest Environment Impact & Low Carbon Footprint
- Excellent Moisture Management (Cool & Absorbs Sweat)
- Excellent Ultra-Premium Feel
- Odor Free
- Naturally Low Flammability
- Excellent Stretch
- Excellent UV Resistance
- Low Pilling & High Durability

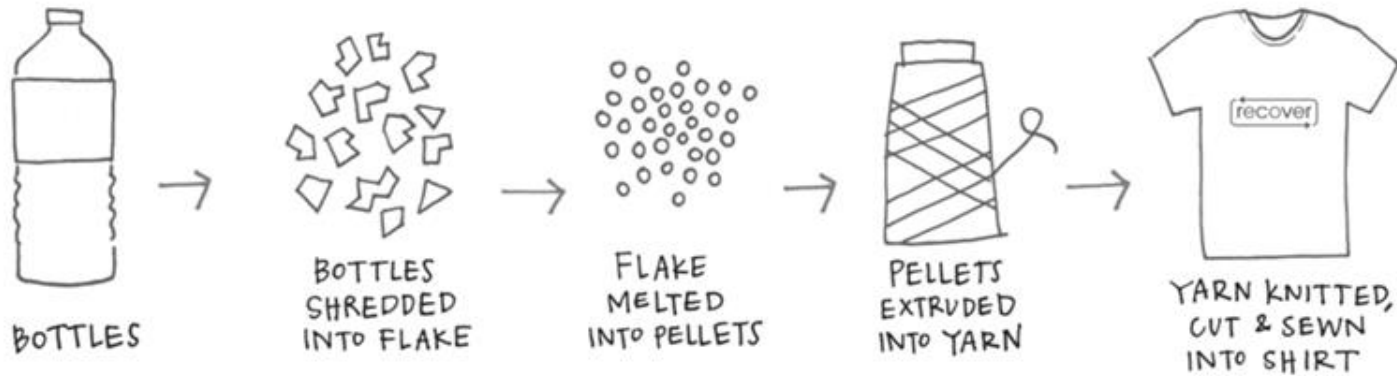

# Dope Dyed Polyester

The Higg Materials Sustainability Index (MSI) provides access to a large amount of relevant information about the impacts of material production used in the apparel, footwear, and home textile industries. You can leverage the information in different ways to get a clear understanding of what is causing different types of material impacts, and different production processes that can be used to reduce those impacts

The screenshot shows the Higg MSI interface. At the top, there is a navigation bar with the Higg logo and the text 'Higg MSI Materials Sustainability Index'. Below this are three buttons: 'MSI Home', 'Materials', and 'Learn More'. A breadcrumb trail reads 'Higg Product Tools > Higg MSI > Compare Materials'. The main heading is 'Compare Materials'. Below the heading, there are two dropdown menus: 'Material' and 'Impact'. The 'Impact' menu has three options: 'benchmark' (selected), 'impact', and 'blend components'. The main content area displays three material entries, each with a score and a horizontal bar chart. The bar charts are color-coded from green (low impact) to red (high impact). The 'Textiles' category is indicated at the end of each bar.

Material	Impact Score	Impact Level	Category
Polyester Dope Dyed	39	Low	Textiles
Polyester fabric	44	Medium-Low	Textiles
Cotton fabric	98	High	Textiles
